PROFESSIONAL SUMMARY

Full-Stack Software Engineer with hands-on experience designing, developing, and deploying production web applications, desktop software and business automation systems. Delivered **17+ client projects** across education, healthcare, retail, and service industries using React, Next.js, TypeScript, Node.js, Python, and SQL. Experienced across the complete software development lifecycle, with measurable outcomes including **116K+ Google Search clicks** and an **80% reduction in administrative workload** through software automation.

TECHNICAL SKILLS

Frontend	React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design, Web Performance.
Backend	Node.js, Express.js, REST APIs, API Integration, CRUD, Authentication, JWT, Authorization.
Python & Apps	Python, Tkinter, CustomTkinter, Desktop Application Development, Automation, Report Generation.
Databases	PostgreSQL, MariaDB, SQL, Database Design, Query Optimization.
AI & Automation	AI Integration, LLM API Integration, Chatbot Development, Prompt Engineering.
Cloud & Tools	Vercel, Cloudflare, Git, GitHub, CI/CD, DNS, SSL, Domain & Production Deployment.

PROFESSIONAL EXPERIENCE

FULL-STACK SOFTWARE ENGINEER | SPHEREROOT

- Founder | Remote / Hyderabad, India | 2025 – Present
- Live: www.sphereroot.com
- Founded and managed a digital solutions agency delivering full-stack web applications, business websites, desktop software, AI-powered applications, and automation systems.
 - Designed, developed, and deployed **17+ client projects** across education, healthcare, retail, and service industries.
 - Built scalable production applications using **React, Next.js, TypeScript, JavaScript, Node.js, Python, SQLite, MariaDB, and Tailwind CSS**.
 - Managed the complete delivery lifecycle from requirements gathering and UI/UX planning to development, deployment, optimization, and ongoing maintenance.
 - Implemented production infrastructure including DNS, SSL, Cloudflare CDN, Vercel hosting, Git-based workflows, and CI/CD processes.
 - Integrated AI-powered chatbots and workflow automation to reduce manual administrative work and improve operational efficiency.

SELECTED PROJECTS

SCHOOL DIGITAL TRANSFORMATION SUITE

- Full-Stack Web & Desktop Platform | Leading High School | Client: Dr. Muhammad Ahmed
- Live: www.leadinghighschool.com
- Led the end-to-end digital transformation of a real educational institution by designing, developing, and deploying a connected ecosystem of web and desktop applications.
 - Built an SEO-optimized school website using **Next.js and React** with online admissions, forms, galleries, announcements, WhatsApp and Google Maps integration.
 - Generated **116K+ Google Search clicks** through technical SEO, performance optimization, and improved search discoverability.
 - Designed a Python-based Fee Management System that automated calculations, payment tracking, PDF receipts, Excel reporting, receipt numbering, and class-wise financial reports.
 - Reduced administrative workload by **over 80%** through workflow automation and digitization.
- Tech: Next.js, React, TypeScript, Python, Tkinter, CustomTkinter, SQLite, SQL, ReportLab, OpenPyXL, Pandas, PyInstaller, MSIX, Vercel, Cloudflare, Framer, HTML, CSS, JavaScript.

OMERGPT — AI CHAT PLATFORM

- Full-Stack Web Application | Live Production Project
- Live: chat.omer4k.com
- Designed and developed a production-ready AI chatbot platform integrating **Meta Llama 3.1 405B** through an API-based architecture.
 - Built a responsive interface using **Next.js, React, TypeScript, and Tailwind CSS** with chat history, Markdown rendering, syntax highlighting, model selection, and mobile-first design.
 - Developed backend functionality including API routing, streaming responses, prompt management, rate limiting, environment-based configuration, and REST API integration.
 - Managed production deployment with CI/CD, custom domain configuration, SSL, DNS, performance optimization, and monitoring.
- Tech: Next.js, React, TypeScript, Tailwind CSS, Node.js, Express.js, REST APIs, MetaLlamaAPI, Vercel, Cloudflare, Git, GitHub, CI/CD

MOHAMMED OMER

FULL-STACK SOFTWARE ENGINEER | CLIENT PROJECTS & CREDENTIALS

SELECTED CLIENT PROJECTS

MAK DENTAL CLINIC

Live: www.makdentals.com

Business Website & Digital Presence | Client: Dr. Mohammed Asad Ali Khan

- Designed and developed a modern, responsive website that established a stronger and more professional digital identity for the dental clinic.
- Improved patient accessibility through responsive design, contact and enquiry flows, Google Maps integration, WhatsApp integration, and appointment-focused calls to action.
- Implemented technical SEO and performance optimization to strengthen the clinic's online visibility and discoverability.
- Created and managed branded digital content that supported the clinic's professional online presence and helped grow its Instagram audience to **500+ followers**.
- Improved the overall website identity, brand consistency, and digital presence through a cohesive client-focused web experience.

Tech: Next.js, React, TypeScript, Tailwind CSS, Vercel, Cloudflare, Git, GitHub, Technical SEO, Performance Optimization

MIDNIGHT CRAVINGS

Live: www.midnightcravings.in

Restaurant / Food Brand Website | Client: Mr. Vilayat Hussain

- Developed a strong, modern website experience to improve the brand's digital identity and create a more engaging online presence for Midnight Cravings.
- Designed and implemented a responsive, visually engaging user experience focused on presenting the food brand, menu offerings, and overall customer experience clearly.
- Strengthened the website's visual identity and brand consistency through modern layout, responsive design, and a polished digital presentation.
- Focused on usability and mobile responsiveness to support customers accessing the brand across desktop and mobile devices.

Core Focus: Website Development, Brand Identity, Responsive UI, User Experience, Performance and Digital Presence

EDUCATION

Bachelor of Computer Applications (B.C.A.)

2022 – 2025

St. Paul's Degree & PG College

Intermediate — C.E.C. (Civics, Economics, Commerce)

2020 – 2022

St. Joseph Degree & PG College

SELECTED CERTIFICATIONS

- Python for Data Science, AI & Development — DeepLearning.AI
- SQL (Advanced) — HackerRank
- Responsive Web Design — freeCodeCamp
- IBM Data Analyst Professional Certificate — IBM

KEY ACHIEVEMENTS

- **17+ client projects** delivered across education, healthcare, retail, and service industries.
- **116K+ Google Search clicks** generated for an educational institution through technical SEO and performance optimization.
- **80%+ reduction in administrative workload** through a custom Fee Management System and workflow automation.
- Built and deployed production web applications, desktop software, AI-powered platforms, and business automation systems.
